

## NEWS AND VIEWS . . .

### And What Have You

By BOB CRAIG

Well it looks like Gov. Smith has done it again. It is impossible to even guess why he thinks that the Governor of Texas can defy a Presidential order backed by a Congressional law.

There is considerable speculation going around as to why he has taken the stand on increases for teachers and state employees in spite of the fact that everyone else has had their wages and prices frozen. Some seem to think it is a political move to get the teachers and state employees vote for governor next year. Others feel it is because he blames the Republicans for the current stock scandal that involves him. While others tend to think that it is a renewal of the old feud between him and former Gov. John Connally.

But personally, I just think you have to chalk it up to ignorance.

While there may be some legal question about teachers pay increases because they were voted in four years ago, there is the same problem with many union contracts that call for increases during this same 90-day period.

At the same time there are many firms who had announced a price increase that was to have become effective after the freeze date that are effected. We had announced a subscription price increase to become effective Sept. 15, but now we will just have to wait and see what happens at the end of the 90 days.

Politically it might have been good business for the governor to protest the teacher's case to the federal government, but to just come out and defy the President's order was rank stupidity. It puts Gov. Smith in the same category as some of the labor leaders who were all for a wage and price freeze as long as it came after they got their raises.

Not being an economist I don't understand very much about economics on the world level, in fact I don't even understand it on the local level, but it would appear to me that the President's actions were a step in the right direction.

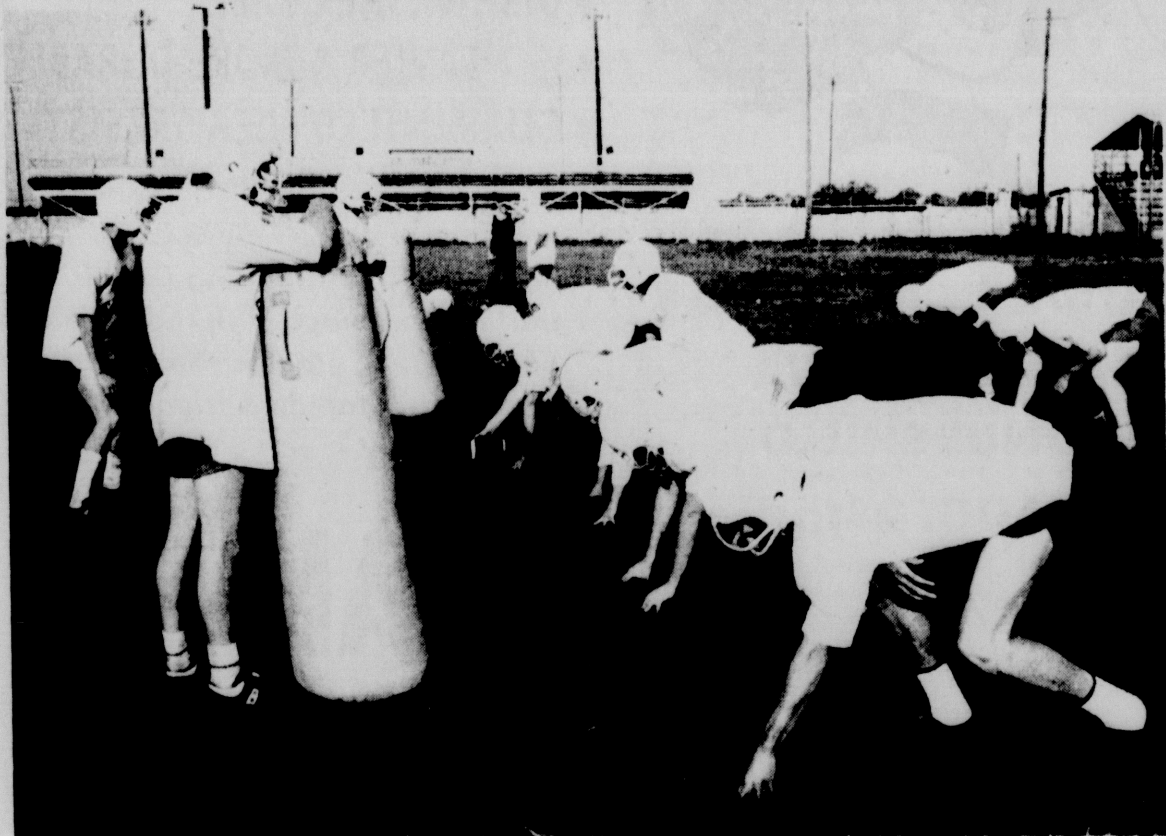

The big problem facing Nixon and Connally in the days ahead is what to do after the 90-day period. I would think that there will have to be some kind of controls extended beyond the current period. Probably some type of review board will have to be set up to decide who should get increases and how much. It is likely that most increases that were announced before the freeze will be allowed to take effect, but at the same time some control will have to be placed on all future increases.

It seems obvious that if the freeze is just allowed to die that we will see more price and wage increases during the next six months than any other time in the history of this nation. This will be because everybody will want to try to be on top if another freeze is ordered.

But back to the current problem of the teachers and state employees it would appear that in spite of all of the Governor's talk they will just have to be patient and wait out the 90-day period with the rest of us and see what happens. It may be an injustice but there are a lot of injustices in any blanket freeze such as this one and based on just the 90-day period it is just not practical to try to work them out. This will have to be done later.

I don't know anybody that is going to get hurt too badly in 90-days.

In case you are wondering what happened to the plan to spray for the mosquitoes from the air—it seems to have died before it got off the ground. The city has been advised that there is just no way to do enough good for the money the project would cost.

## FROM THE FILES . . .

FORTY FIVE YEARS AGO  
(August 24, 1926)

It's here. Gas was turned into the mains at nine o'clock Thursday morning and the Herald man gets the first meter set. That is the way the history will read in years to come. Yes Siree! Gas is all over town now, and the kind that will burn.

W. B. Crawford, Superintendent of Meters, tied the first meter on Thursday morning just after the mains were filled. For the next few months there will be a grand rush to get gas service connections. It is still very warm but these days will turn into cooler and colder ones in the near future, so then if you wish gas as a warmer before the bad weather, now is the time to tie onto the gas line and have everything set and tested. Then there are the heaters and ranges, plenty to do before cold weather.

One of the thriving business concerns of Hamlin is the Sparks Service Station in South Hamlin. Danny Sparks and his son, Leslie, have put in close attention to their business since going down on that part of the Avenue. Gradually their business has grown and now it will be seen that a substantial brick building is being added on the south of their two story building. This entire place will in time be brick and will take on a handsome appearance.

In rambling around this week we find a brand new up-to-date minute grocery store. It is the O. L. Taulman grocery house which has been operating for quite a long time in the rear of the F & M National Bank Building. It is now out on the main street in one of the Model Hotel Store Rooms.

This grocery room will be a surprise to you. It has all the old time service with every modern convenience. Go to the shelves and get what you want or have the boss to hand it out to you, or if you prefer have the goods delivered to your kitchen. In this week's Herald can be seen the Taulman prices.

TWENTY YEARS AGO  
(August 1, 1951)

Potential gridiron performers of Hamlin met with Coach Jesse Burdit on the night of August 9 to give their coach a preview of what his squad is to look like for the coming campaign.

About 55 players met with the coaches with some absentees due to vacation trips.

The Pied Pipers will be captained

by a threesome composed of Tuffy Ford, Hub Hopler and Frank Albert Tucker during the fall campaign.

Training for the squad will start August 27 and first game for the season has been scheduled with the Haskell Indians on September 14.

Two new transfers have been added to the Piper squad in Jimmy Nelson from Lubbock and James Burkhart, Kermit. These players will not be eligible for varsity competition this fall but they should prove to be mainstays for the team next year.

TEN YEARS AGO  
(August 24, 1961)

Mrs. John T. Johnson, manager of the Hamlin Swimming pool, has announced that Sunday will be the last day for the swimming season.

She also stated that closing time for the pool this week will be 5:30 p.m. instead of 6 o'clock.

Two local teams are slated to enter the Jaycee Softball Tourney which is supposed to get underway this Thursday night. The Hamlin Jaycees hosts of the Tournament and the team representing the Hamlin Oil Mill are the two local entrants. ## Neinda Philosopher Wants to Add Own Amendment to 10¢-Per-Voter Bill

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One tries his hand at writing legislation this week, more or less.

Dear editor:

In these days of price freezes I couldn't help but get interested in a bill approved by the United States Senate a couple of weeks even before any freeze was announced.

In a bill to control and limit spending by candidates, some of whom spend ten to twenty times as much getting elected as the office pays, the Senate voted a ceiling of "10 cents per vote" on the amount a candidate for any Federal office can spend on any kind of advertising."

I don't know that the Senate intended it this way, but it looks to me like they're saying my vote is not worth more than a dime, or if you want to figure it another way, mine is worth say 2 cents and yours could be inflated to 18 cents. Either way, they'd still be within the 10-cent-per-voter limit.

On the whole, I suppose this is a good bill, but it doesn't go far enough.

I'd like to add an amendment. Not only should a candidate not be allowed to spend more than 10 cents a vote to get elected, but once elected should himself not be paid more than 10 cents for his vote. It's not only the cost of electing somebody that's

high, it's also the cost of keeping him on your side after he's in.

Under my amendment to the Senate bill, no voter would be allowed to spend more than 10 cents per office-holder to influence any legislation. You could call it an attack on the inflationary costs of government.

Under this system, about all any tycoon wanting to entertain a Congressman could do is buy him a package of chewing gum.

Speaking of money, I noted that a lot of foreign countries are up in arms over the value of the dollar after the President's gold-buying announcement.

You reckon they're so mad they'll now insist all foreign aid from us has to be paid in their own money. Japan in yens, Germany in marks, England in

pounds, France in francs, and the South Sea Islands in coconut shells?

Yours faithfully,  
J. A.

## "LABOR IS LIFE"

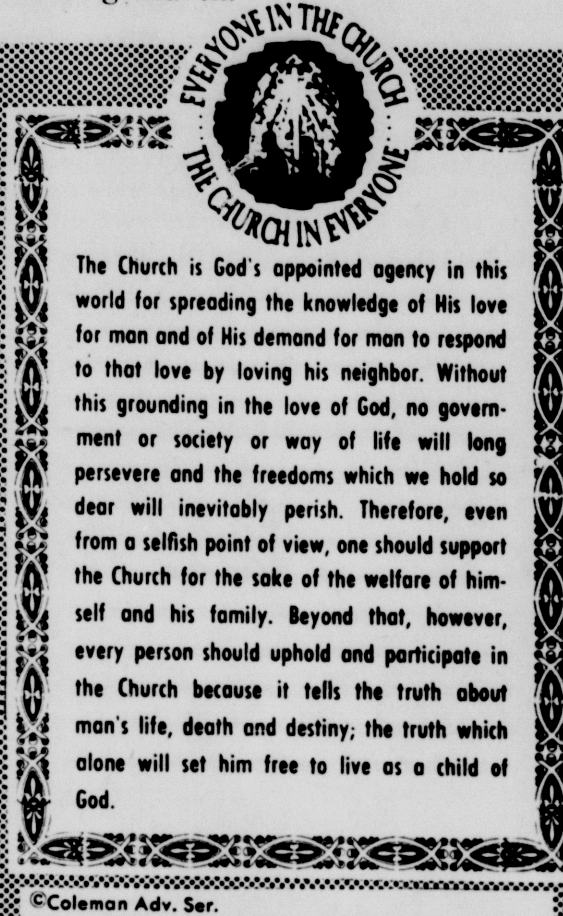

Carlyle

Let's talk about labor — work, if you please, for that is what labor is. Labor has come a long, long way since ancient times when work was closely related to slavery. Aristotle described a slave as "a tool with life in it." In the Middle Ages, labor gained dignity and respect as slavery declined and Christianity spread. Then, later in the 1700's and 1800's the industrial revolution created conditions that led to the modern labor movements. Today labor has gained respect, wages and working conditions hitherto unknown before.

Labor is life. Work is satisfying. Through his work a man accomplishes, and creates, and provides for himself and his family. When deprived of the opportunity or ability to work, man often becomes depressed, even ill.

I Corinthians 3:9 tells us that "We are laborers together with God." We are His hands, feet, voice, and compassionate heart here on earth to spread the gospel, lift up the poor, eradicate ignorance and destroy disease.

Honor God and Labor this week by attending church.

THE FAMILY LAWYER

Barbs From the Bench

On trial for burglary, the defendant was trying to explain why he had been observed near the scene of the crime at three o'clock in the morning. But the judge was skeptical.

"Honest people," he said caustically, "are in bed at three o'clock in the morning."

Was the judge's remark prejudicial? Indeed it was, ruled an appellate court, granting the defendant a new trial. The court said the judge had no right, even by wisecrack, to blacken the defendant's reputation.

The appellate court was concerned not about the feelings of the defendant but about the minds of the jurors.

"The jury," said one expert, "can be easily influenced by the slightest suggestion from the (trial judge), whether it be a nod of the head, a smile, a frown, or a spoken word. It is imperative that (he) conduct himself with utmost caution in order that the unusual power he possesses shall not be abused."

Unfortunately, a new trial is costly in both time and money. Accordingly, even if a judge has said something to disparage the defendant, the appellate court will usually overlook it if there seems to be no great harm done. Often a judge who realizes his mistake can "take the sting out" of what he said by instructing the jury to ignore it.

Nor is a judge expected to be superhuman. In the heat of a trial, he may understandably show flashes of nonjudicial emotion.

In one case, while the judge was talking with a lawyer, the defendant kept interrupting. Finally the judge burst out:

"Please keep quiet. I don't like it. You are here to answer questions. If there is any more of that kind of talk, you will be in jail for contempt of court."

But this time, an appellate court found no grounds for a new trial. The court said that, even though the judge should not have lost his temper, he could be excused for a natural reaction to a stressful situation.

The United States Supreme Court once summarized the matter as follows:

"A defendant is entitled to a fair trial but not a perfect one."

Today, a fine dictionary is a working part of any household. The most highly-complimented book is one thumbed to the nub, and the happiest books we know of are the well-fingered dictionaries belonging to busy, vital families.

The first public library in the U.S. was founded in 1833 in Peterborough, New Hampshire.

AUSTIN — Texas became one of the first states to defy President Nixon's wage freeze order as it applies to public employees and school teachers. Gov. Preston Smith, after three days of conflicting reports, issued a proclamation instructing agency heads to ignore the August 15 order against pay raises for teachers and state workers. Raises were authorized by the Legislature long ago and funds appropriated for the new budget beginning September 1.

U. S. Office of Emergency Preparedness official first informed the Governor's office that the freeze did not apply to local and state government employees and teachers.

But 24 hours later, the President's Cost of Living Council headed by former Texas Gov. John Connally, now U. S. Treasury Secretary, reversed this position. Council held that state and local government workers were subject to the 90-day freeze, and teachers could get raises only if their contract periods began before August 15.

Texas officials had taken the stand that the law authorizing present salary levels for 95,000 state employees and 138,000 teachers expires August 31, and they had no authority but to put new wage scales ordered by the Legislature into effect after that.

"I am refusing to obey the President's order to scrap our appropriations bill, which was signed into law months ago," said Smith. "Texas is going to obey the laws of the 62nd Legislature."

In his official proclamation, the Governor accepted "full responsibility" for his order of federal defiance.

Governor further blasted the federal government for issuing "two conflicting sets of orders on every vital issue."

Smith's directive means the 6.8 percent raise for state employees will go into effect September 1, and teachers will get their long-range increase approved by the Legislature two years ago.

At the same time, tax and college tuition raises also will go into effect. Scheduled auto insurance rate boost has been postponed until after the 90-day freeze, as has consideration of freight rate increases.

**"SCANDAL" HEARINGS**  
HELD — House General Investigating Committee held the opening round in its hearings on stock-loan scandals involving high state officials.

Frank W. Sharp, onetime head of Sharpstown State Bank and National Bankers Life Insurance Company, was the star witness. He told Committee members he and House Speaker Gus Mutscher had a "tacit understanding" that there was a link between stock purchases in NBL by the speaker and passage of banking bills favored by Sharp in 1969.

Speaker Mutscher borrowed money from the Sharpstown Bank to buy the stock, as did a

few other state officials including Governor Smith.

Sharp denied, however, he ever gave anything of value to a state official in exchange for a political favor.

Former Atty. Gen. Waggoner Carr, appearing before the Committee, called the federal Securities and Exchange Commission investigation of stock-loan transactions a "Republican-inspired political hatchet job."

**WELFARE POLICY**  
CHANGED — State Board of Public Welfare has changed its policy to permit Old Age Assistance recipients to earn up to \$50 a month without loss of assistance payments, effective November 1.

Under current eligibility rules, only \$7.50 of any income source is exempted in calculating an OAA recipient's budgeted needs for an assistance check.

New policy will exempt the first \$20 of earned income and one-half remainder up to \$80 a month.

Governor said OAA recipients will be permitted a better standard of living and not penalized for working. OAA average monthly grant is about \$62.28.

### SHORT SNORTS

Roy R. Evans of Austin is the new president of Texas AFL-CIO and Harry Hubbard is the new secretary-treasurer. They won elections at Labor's Convention August 14.

Governor has been urged to permit the Legislature in special session next year to consider a competitive rate system for auto insurance.

New "Texas Hunting Guide" for 1971-72 is available from Parks and Wildlife Department showing seasons, bag limits and game law summaries. More than \$1 million has been allocated for restoration and development projects at San Jacinto Battleground and Mission Texas state parks.

Col. Wilson E. Speir, Texas Department of Public Safety director, was named lawman of the year by Veterans of Foreign Wars.

Attorney General Martin filed suit against City of Galveston for environmental law violation in refuse disposal and city dump burning.

Sen. Ralph Hall of Rockwall said he will announce for lieutenant governor in September.

## NEWS AND VIEWS . . .

### And What Have You

By BOB CRAIG

Well it looks like Gov. Smith has done it again. It is impossible to even guess why he thinks that the Governor of Texas can defy a Presidential order backed by a Congressional law.

There is considerable speculation going around as to why he has taken the stand on increases for teachers and state employees in spite of the fact that everyone else has had their wages and prices frozen. Some seem to think it is a political move to get the teachers and state employees vote for governor next year. Others feel it is because he blames the Republicans for the current stock scandal that involves him. While others tend to think that it is a renewal of the old feud between him and former Gov. John Connally.

But personally, I just think you have to chalk it up to ignorance.

While there may be some legal question about teachers pay increases because they were voted in four years ago, there is the same problem with many union contracts that call for increases during this same 90-day period.

At the same time there are many firms who had announced a price increase that was to have become effective after the freeze date that are effected. We had announced a subscription price increase to become effective Sept. 15, but now we will just have to wait and see what happens at the end of the 90 days.

Politically it might have been good business for the governor to protest the teacher's case to the federal government, but to just come out and defy the President's order was rank stupidity. It puts Gov. Smith in the same category as some of the labor leaders who were all for a wage and price freeze as long as it come after they got their raises.

Not being an economist I don't understand very much about economics on the world level, in fact I don't even understand it on the local level, but it would appear to me that the President's actions were a step in the right direction.

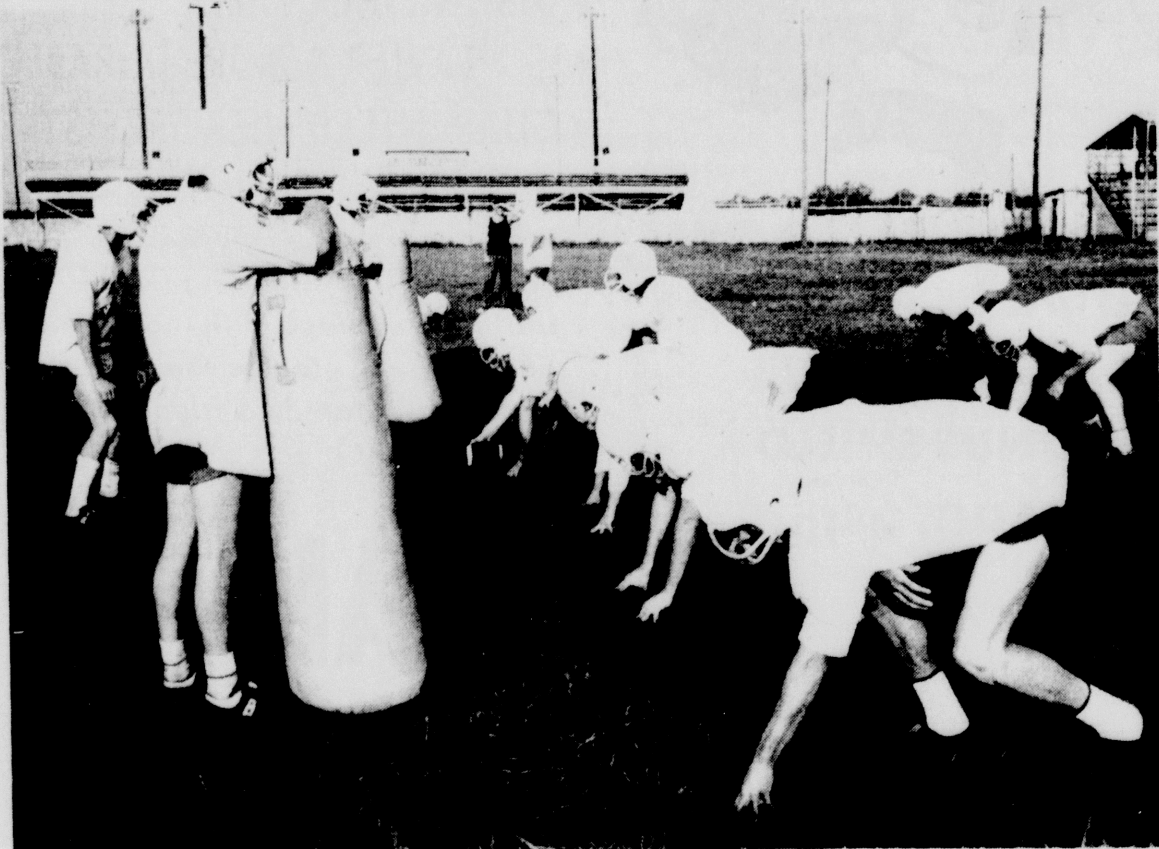

The big problem facing Nixon and Connally in the days ahead is what to do after the 90-day period. I would think that there will have to be some kind of controls extended beyond the current period. Probably some type of review board will have to be set up to decide who should get increases and how much. It is likely that most increases that were announced before the freeze will be allowed to take effect, but at the same time some control will have to be placed on all future increases.

It seems obvious that if the freeze is just allowed to die that we will see more price and wage increases during the next six months than any other time in the history of this nation. This will be because everybody will want to try to be on top if another freeze is ordered.

But back to the current problem of the teachers and state employees it would appear that in spite of all of the Governor's talk they will just have to be patient and wait out the 90-day period with the rest of us and see what happens. It may be an injustice but there are a lot of injustices in any blanket freeze such as this one and based on just the 90-day period it is just not practical to try to work them out. This will have to be done later.

I don't know anybody that is going to get hurt too badly in 90-days.

In case you are wondering what happened to the plan to spray for the mosquitoes from the air—it seems to have died before it got off the ground. The city has been advised that there is just no way to do enough good for the money the project would cost.

**TO SCRIMMAGE FRIDAY** — The Pied Pipers work on their offensive timing as they prepare for their first scrimmage here Friday evening with Seymour. The Junior Varsity will open the scrimmage session at 6:30 with the varsity scrimmage starting at 7:30. Next Friday the teams will travel to Aspermont for their second scrimmage and then will open the regular season Friday, Sept. 10. (Photo by Tim Jones)

## Pipers to Scrimmage Seymour Here Friday

The Pied Pipers will hold their first scrimmage here Friday evening with the Seymour Panthers. The Junior Varsity teams will open the scrimmage at 6:30 with the two varsities getting together at 7:30.

The Pied Piper Booster Club will kick off its annual membership drive at the scrimmage Friday but has postponed its annual Ice Cream Supper until its first regular meeting, Monday, Sept. 6, according to James E. Rodgers, club president.

Coach Deane Wright said after an intra-squad scrimmage here Saturday evening that the team was looking a lot better than he had expected after only a week of workouts. Lack of experience is his biggest problem, he said.

Coach Wright said that he now had 45 boys working out with six seniors, eight juniors, 20 sophomores and 11 freshmen.

Probable starters on the varsity offense Friday evening, according to Coach Wright, will be Milton Jones, a 180-pound junior at quarterback; David Willis, a 160-pound sophomore at one halfback and Johnny

Jones, a 164-pound freshman at the other halfback; Barry McDonald, a 190-pound senior at fullback; Ricky Rodgers, a 151-pound senior will be at split end and James Mayes, a 160-pound senior will be at tight end.

At tackles will be Mike Donham, 177-pound senior and Ray Scifres, 194-pound sophomore; at guard will be Fernando Rangel, a 165-pound senior and John Hudson, a 181-pound sophomore; and at center will be Frank Willis, a 199-pound junior.

On defense will be Hudson and Donham at tackle, Steve McKissack, 177-pound sophomore, and Scifres at ends; Rangel at nose guard, Milton

Jones and McDonald at linebackers, Rodgers and Kenneth King, a 150-pound sophomore at cornerbacks, and David Willis and Johnny Jones as halfbacks.

Also working at quarterback on the two teams are Steve Mackey, sophomore; Willie Hooper, sophomore; and Tracy Rowland, freshman. At running backs are Steve Baker, senior; Joe Mayes, junior; King; Bill Cork, sophomore; Ricci Harugthy, freshman; Steve Evans, freshman; Dwayne Weaver, sophomore; Alfred McAfee, sophomore; Albert

McAfee, sophomore; L. J. Lee, sophomore; Johnny Lee, freshman; George Titus, sophomore, and Larry Mayes, sophomore.

Also working at center are Dwayne Hertel, senior; and Gary Neal, freshman. At guards are McKissack, Roy Baker, junior; Ricky Crowley, sophomore; Gerald Young, freshman; Claude Ledbetter, junior; and Gordon Wells, freshman. At tackles are Frank Kirkland, junior; Mike Herd, junior; Luke Reynolds, freshman; Danny Hix, sophomore; and Jim Johnson, sophomore.

At ends are David Thompson, junior; Jerry Johnson, freshman; Gery Hertel, sophomore; Randy Elmore, freshman; and Gary Scheffield, sophomore.

### Game to Be Aired

Dallas Cowboy fans will be able to see the Cowboys play Houston tonight (Thursday) on Channel 13 on the cable, according to Robert Hinshaw, president of Cable Electronics. Hinshaw said the game will start at 8 p.m. and will be carried to its conclusion.

### Season Football Tickets Still Available Here

Season ticket holders to all the Hamlin Pied Piper home football games have been reminded again to call or pick up their tickets for the coming season, according to B. V. Newberry, high school principal.

Everyone who wants the same seats as they had last year are urged to contact the high school office by Monday, Newberry said.

Tickets for the five home games will be \$7.50. Reserve seat tickets sold at the gate will be \$1.75.

Newberry said that there were plenty of good seats still available and urged anyone interested to call or come by the school as they can save 25 cents a game by buying the tickets in advance.

## Tri-County Education Co-op To Aid Exceptional Children

The Tri-County Education Co-op has been formed by the public schools of Fisher, Jones, and Stonewall Counties.

The purpose of developmental early childhood education programs for exceptional children, is to provide instructional educational services to children who are ages three, four, and five years old who may be predicted to experience academic problems upon entering regular elementary school programs.

Pete Lollar, former elementary principal in Anson, has been named supervisor.

The other supportive staff members are Mrs. Mona Conger, early childhood counselor; Mrs. Carol Williams and Mrs. Anneita Forrest, early childhood diagnosticians. This supportive staff will direct a faculty of 15 specially trained teachers and four instructional aides to deal with the very young children.

These teachers will be working in conjunction with the local schools.

Interested parents are asked to leave information as to how they may be contacted with their respective school principals.

### Immunization Clinic Being Planned Here for Students

The first of three clinics designed to make available immunizations now required by state law for public school students has been set for Sept. 20, according to the school nurse, Mrs. W. W. Wallace.

The immunizations to be given under the direction of John Black of the State Health Department will include diphtheria, whooping cough, tetanus, polio and both measles. Smallpox will not be given at this time but arrangements may be made at the school with Mrs. Wallace for school age children.

Anyone wishing to have their pre-school children receive the

immunizations are urged to attend the free clinic. The immunizations are free through the State Health Department.

Hours for the clinic at the junior high building in the auditorium will be from 10 to 12 a.m. In the afternoon it will be moved to the primary school cafeteria from 1:30 to 3:00 p.m. Parents of young children are encouraged to go to either building.

The first three clinics will be set up one month apart, Mrs. Wallace said. Dates will be announced later, she said.

In September, 1972, all children entering Texas elementary or secondary schools and institutions of higher education must have been immunized against six diseases.

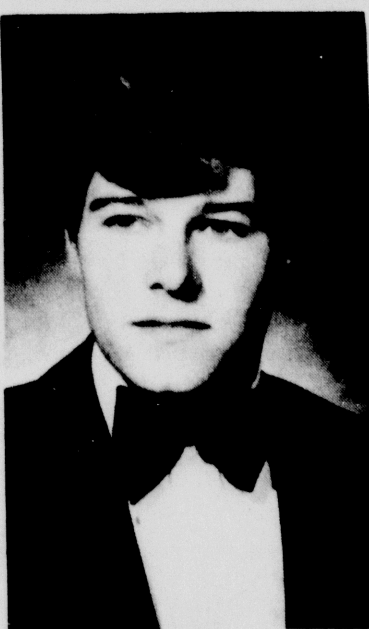

Complete immunization can be taken by attending all the clinics.

FROM THE FILES . . .

FORTY FIVE YEARS AGO  
(August 24, 1926)

It's here. Gas was turned into the mains at nine o'clock Thursday morning and the Herald man gets the first meter set. That is the way the history will read in years to come. Yes Siree! Gas is all over town now, and the kind that will burn.

W. B. Crawford, Superintendent of Meters, tied the first meter on Thursday morning just after the mains were filled. For the next few months there will be a grand rush to get gas service connections. It is still very warm but these days will turn into cooler and colder ones in the near future, so then if you wish gas as a warmer before the bad weather, now is the time to tie onto the gas line and have everything set and tested. Then there are the heaters and ranges, plenty to do before cold weather.

One of the thriving business concerns of Hamlin is the Sparks Service Station in South Hamlin. Danny Sparks and his son, Leslie, have put in close attention to their business since going down on that part of the Avenue. Gradually their business has grown and now it will be seen that a substantial brick building is being added on the south of their two story building. This entire place will in time be brick and will take on a handsome appearance.

In rambling around this week we find a brand new up-to-date minute grocery store. It is the O. L. Taulman grocery house which has been operating for quite a long time in the rear of the F & M National Bank Building. It is now out on the main street in one of the Model Hotel Store Rooms.

This grocery room will be a surprise to you. It has all the old time service with every modern convenience. Go to the shelves and get what you want or have the boss to hand it out to you, or if you prefer have the goods delivered to your kitchen. In this week's Herald can be seen the Taulman prices.

TWENTY YEARS AGO  
(August 1, 1951)

Potential gridiron performers of Hamlin met with Coach Jesse Burdit on the night of August 9 to give their coach a preview of what his squad is to look like for the coming campaign.

About 55 players met with the coaches with some absentees due to vacation trips.

The Pied Pipers will be captained

by a threesome composed of Tuffy Ford, Hub Hopler and Frank Albert Tucker during the fall campaign.

Training for the squad will start August 27 and first game for the season has been scheduled with the Haskell Indians on September 14.

Two new transfers have been added to the Piper squad in Jimmy Nelson from Lubbock and James Burkhart, Kermit. These players will not be eligible for varsity competition this fall but they should prove to be mainstays for the team next year.

TEN YEARS AGO  
(August 24, 1961)

Mrs. John T. Johnson, manager of the Hamlin Swimming pool, has announced that Sunday will be the last day for the swimming season.

She also stated that closing time for the pool this week will be 5:30 p.m. instead of 6 o'clock.

Two local teams are slated to enter the Jaycee Softball Tourney which is supposed to get underway this Thursday night. The Hamlin Jaycees hosts of the Tournament and the team representing the Hamlin Oil Mill are the two local entrants. First round play is scheduled to begin on Thursday night at 7:30 with the championship play to continue Friday night, at 7:30.

Other teams entering are: Rotan JC's, Munday fire department, Stamford and Ericksdahl.

Admission will be fifty cents for adults and children under twelve are admitted free. A concession stand will be operated for your convenience.

A trophy will be awarded to the first place team.

Executive board members of the Parent-Teachers Association met Tuesday afternoon in the home of the president, Mrs. Bill Shira.

Plans for the coming year were discussed and dates for the annual magazine raising drive were set to begin October 6.

Mrs. Ed Croan presented a summary of the year's study, "Homes Create Community Strength Through Effective Learning."

The opening meeting will be held September 7 at 7:30 p.m. At this time the superintendent, principals, teachers and board members will be introduced. Rev. Spencer Lyles, new minister of the Foursquare Church will give the invocation and meditation.

A get acquainted tea is to be held following the meeting.

"LABOR IS LIFE"

Carlyle

Let's talk about labor — work, if you please, for that is what labor is. Labor has come a long, long way since ancient times when work was closely related to slavery. Aristotle described a slave as "a tool with life in it." In the Middle Ages, labor gained dignity and respect as slavery declined and Christianity spread. Then, later in the 1700's and 1800's the industrial revolution created conditions that led to the modern labor movements. Today labor has gained respect, wages and working conditions hitherto unknown before.

Labor is life. Work is satisfying. Through his work a man accomplishes, and creates, and provides for himself and his family. When deprived of the opportunity or ability to work, man often becomes depressed, even ill.

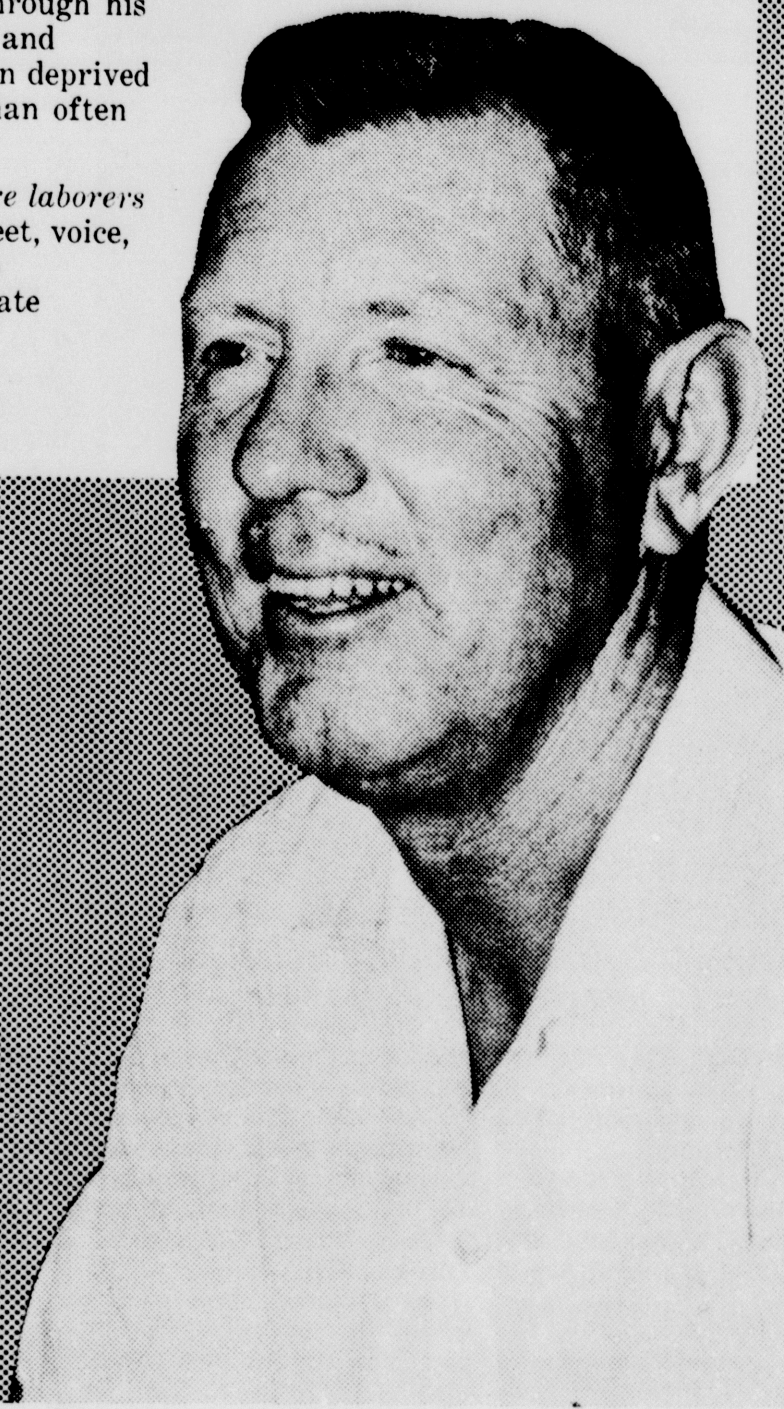

I Corinthians 3:9 tells us that "We are laborers together with God." We are His hands, feet, voice, and compassionate heart here on earth to spread the gospel, lift up the poor, eradicate ignorance and destroy disease.

Honor God and Labor this week by attending church.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Neinda Philosopher Wants to Add  
Own Amendment to 10¢-Per-Voter Bill

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One tries his hand at writing legislation this week, more or less.

Dear editor:

In these days of price freezes I couldn't help but get interested in a bill approved by the United States Senate a couple of weeks even before any freeze was announced.

In a bill to control and limit spending by candidates, some of whom spend ten to twenty times as much getting elected as the office pays, the Senate voted a ceiling of "10 cents per vote on the amount a candidate for any Federal office can spend on any kind of advertising."

I don't know that the Senate intended it this way, but it looks to me like they're saying my vote is not worth more than a dime, or if you want to figure it another way, mine is worth say 2 cents and yours could be inflated to 18 cents. Either way, they'd still be within the 10-cent-per-voter limit.

On the whole, I suppose this is a good bill, but it doesn't go far enough.

I'd like to add an amendment. Not only should a candidate not be allowed to spend more than 10 cents a vote to get elected, but once elected should himself not be paid more than 10 cents for his vote. It's not only the cost of electing somebody that's

high, it's also the cost of keeping him on your side after he's in.

Under my amendment to the Senate bill, no voter would be allowed to spend more than 10 cents per office-holder to influence any legislation. You could call it an attack on the inflationary costs of government.

Under this system, about all any tycoon wanting to entertain a Congressman could do is buy him a package of chewing gum.

Speaking of money, I noted that a lot of foreign countries are up in arms over the value of the dollar after the President's gold-buying announcement.

You reckon they're so mad they'll now insist all foreign aid from us has to be paid in their own money. Japan in yens, Germany in marks, England in

pounds, France in francs, and the South Sea Islands in coconut shells?

Yours faithfully,  
J. A.

### Barbs From the Bench

On trial for burglary, the defendant was trying to explain why he had been observed near the scene of the crime at three o'clock in the morning. But the judge was skeptical.

"Honest people," he said caustically, "are in bed at three o'clock in the morning."

Was the judge's remark prejudicial? Indeed it was, ruled an appellate court, granting the defendant a new trial. The court said the judge had no right, even by wisecrack, to blacken the defendant's reputation.

The appellate court was concerned not about the feelings of the defendant but about the minds of the jurors.

"The jury," said one expert, "can be easily influenced by the slightest suggestion from the (trial judge), whether it be a nod of the head, a smile, a frown, or a spoken word. It is imperative that (he) conduct himself with utmost caution in order that the unusual power he possesses shall not be abused."

Unfortunately, a new trial is costly in both time and money. Accordingly, even if a judge has said something to disparage the defendant, the appellate court will usually overlook it if there seems to be no great harm done. Often a judge who realizes his mistake can "take the sting out" of what he said by instructing the jury to ignore it.

Nor is a judge expected to be superhuman. In the heat of a trial, he may understandably show flashes of nonjudicial emotion.

In one case, while the judge was talking with a lawyer, the defendant kept interrupting. Finally the judge burst out:

"Please keep quiet. I don't like it. You are here to answer questions. If there is any more of that kind of talk, you will be in jail for contempt of court."

But this time, an appellate court found no grounds for a new trial. The court said that, even though the judge should not have lost his temper, he could be excused for a natural reaction to a stressful situation.

The United States Supreme Court once summarized the matter as follows:

"A defendant is entitled to a fair trial but not a perfect one."

Today, a fine dictionary is a working part of any household. The most highly-complimented book is one thumbed to the nub, and the happiest books we know of are the well-fingered dictionaries belonging to busy, vital families.

The first public library in the U.S. was founded in 1833 in Peterborough, New Hampshire.

AUSTIN — Texas became one of the first states to defy President Nixon's wage freeze order as it applies to public employees and school teachers. Gov. Preston Smith, after three days of conflicting reports, issued a proclamation instructing agency heads to ignore the August 15 order against pay raises for teachers and state workers. Raises were authorized by the Legislature long ago and funds appropriated for the new budget beginning September 1.

U. S. Office of Emergency Preparedness official first informed the Governor's office that the freeze did not apply to local and state government employees and teachers.

But 24 hours later, the President's Cost of Living Council headed by former Texas Gov. John Connally, now U. S. Treasury Secretary, reversed this position. Council held that state and local government workers were subject to the 90-day freeze, and teachers could get raises only if their contract periods began before August 15.

Texas officials had taken the stand that the law authorizing present salary levels for 95,000 state employees and 138,000 teachers expires August 31, and they had no authority but to put new wage scales ordered by the Legislature into effect after that.

"I am refusing to obey the President's order to scrap our appropriations bill, which was signed into law months ago," said Smith. "Texas is going to obey the laws of the 62nd Legislature."

In his official proclamation, the Governor accepted "full responsibility" for his order of federal defiance.

Governor further blasted the federal government for issuing "two conflicting sets of orders on every vital issue."

Smith's directive means the 6.8 percent raise for state employees will go into effect September 1, and teachers will get their long-range increase approved by the Legislature two years ago.

At the same time, tax and college tuition raises also will go into effect. Scheduled auto insurance rate boost has been postponed until after the 90-day freeze, as has consideration of freight rate increases.

**"SCANDAL" HEARINGS HELD** — House General Investigating Committee held the opening round in its hearings on stock-loan scandals involving high state officials.

Frank W. Sharp, onetime head of Sharpstown State Bank and National Bankers Life Insurance Company, was the star witness. He told Committee members he and House Speaker Gus Mutscher had a "tacit understanding" that there was a link between stock purchases in NBL by the speaker and passage of banking bills favored by Sharp in 1969.

Speaker Mutscher borrowed money from the Sharpstown Bank to buy the stock, as did a

**KENT STATE: WHAT HAPPENED AND WHY** by James A. Michener — This could be your university. The students and National Guardsmen could be you, or young people of your neighborhood, or if you are old enough, your sons and daughters. The city of Kent could be your community. That is why you need to know what happened to you, so that you can prevent it from happening again.
